Position Statement

I am completing my third year of my first term on the Board of Directors. Over these three years I committed myself to contribute towards dramatic economic and structural change through-out Michigan. I have taken on a leadership challenge and contribute beyond the traditional community planning role and utilize my problem solving skills in city management. I believe that community planners have a role in leading Michigan through these uncertain times. As a Board of Director member I support and contribute to Board linkage throughout Michigan. This linkage is reaping fruit by attracting Board members from under represented areas like the Upper Peninsula and Detroit. The linkage engages planning leaders from different regions and is proven to be successful and I will continue to support board linkage with all regions of Michigan. Because of my leadership skills I have been appointed to the Board of Directors Executive Committee. This places me into the Board of Directors' leadership succession. Currently I serve as the Secretary/Treasurer and if I am elected for a second term on the Board of Directors, I will continue with succession, including Vice President, President and Past President. I respectfully request the membership support and ask that you elect me for a second term on the Board of Directors. Thank you.
