Chapter 1. Introduction	1
The Discovery	1
Serious Problems Confront Us	3
Definition of Community	3
Suburbia is Where Cars Compete for Asphalt	4
Traffic Congestion Rising	5
How Do We Get Started to Make “Change” Happen?	6
Walking Audit	7
Chapter 1 Endnotes	8
Chapter 2. What is a Walkable Community?	9
Defining Walkability	9
Suburbia—Anywhere, USA?	10
What Makes a Street Walkable?	12
Sense of Community	14
Transit-Oriented Development	16
Box City	17
Decay is Common in Inner Cities	18
Exhaust Fumes Are Unpleasant	18
People Would Rather Drive	18
Absence of People is Decay	19
Health Experts Say...	20
Definition of a Walkable City	21
Chapter 2 Endnotes	22
Chapter 3. Historical Perspective	23
What Happened?	23
The Automobile is “King” in Michigan	23
Humorous Car Regulations	23
Culprit is Sprawl	25
Definition of Urban Sprawl	25
Characteristics of Sprawl	26
Homebuyers Favor Short Commutes, Walkable Neighborhoods	27

Contents

Chapter 3. (continued)	
Here's an All Too Familiar Scenario	28
A Lot Happened Over the Past 50 years	29
Interstate Helps Perpetuate a Centerless Sprawl	29
Urban Renewal in Detroit	30
Throwing Money at New Roads	31
Bottom Line...	32
Chapter 3 Endnotes	34
Chapter 4. Recognizing the Symptoms of Failure	35
Quicker Response Needed for Symptoms of Failure...	39
A Symptom of Failure—Wide Streets	42
Chapter 5. Health Benefits	43
People are Walking Less	43
It All Comes Down To This	46
2003 Survey—U.S. Kids Less Active	46
City Girl's Loneliness in Her Suburban Switch is Normal	47
Chapter 5 Endnotes	48
Chapter 6. Strategies for Success	49
Building a Road System	49
Politics	49
Shopping Along Rochester Road	50
14 Key Strategies For Walkability	51
Street Widths	51
Strategy 1. Build for Everyone	52
Story of Mode Hopping	52
Road Designers Forgot About People	52
In the Good Old Days	52
Strategy 2. Build with Proper Size and Scale	55
Front Porches and Entrances	55
Eyes on the Street	55
Local vs. Regional	56
Space Needed for Cars	57
People Will Walk one-Quarter Mile Radius	57
Sustainable Communities	57
Use of Space	58
Effects of Auto-Dependency-	59

Contents

Strategy 3.. Create Linkages	60
No Sidewalks is a Problem	61
Connect Neighborhoods	61
Short Blocks Best for Walking	62
Cul-de-sac Kids	63
Variety in Look of Buildings	64
Oregon Reduces Car Dependence	64
New Linkages and Connections Can be Created	65
Strategy 4. Streets Have Multiple Uses	65
Charrette Workshop	67
Strategy 5. Sidewalks Must Be Comfortable	68
Strategy 6. Streets Must Be Crossed With Ease	71
Strategy 7. Keep Traffic Separate and Low Speed	72
Speed vs. Safety	72
Reducing the Speeds of Cars	73
Transit	73
Road Diets	74
Traffic Impacts on Livability	74
Short History Lesson About Automobile Impacts	75
The Story of Ferndale’s “Road Diet”	76
Narrow Lanes	77
Strategy 8. Build Bike Lanes	78
Benefits of Urban Bike Lanes to Other Road Users	79
Benefits of Urban Bike Lanes (continued)	80
Wide Shoulders	81
Strategy 9. Keep Traffic Moving	82
Traffic Calming Strategies	82
Traffic Calming Strategies and Devices	83
Lower Speeds Can Reduce Congestion	87
Mini-Circles vs. Stop Signs	88
Mini-Circles	88
Modern Roundabout	89
Definition of a Modern Roundabout	89
Milford’s Tale	90
Facts About Roundabouts	92
Woonerf (or shared street)	93
Woonerf (or shared street) How Do They Work?	93
Woonerf Design Characteristics	94

Contents

Strategy 10. Build Compact Intersections	95
Curb Radius Trade-Offs	96
Traffic Calming Perspectives	96
Channelized Islands and Median Noses	97
Strategy 11. Convert One-Way Streets to Two-Way	98
Greenville	98
Ann Arbor	98
Lapeer	99
Kalamazoo	99
Bay City	99
Owosso	100
Alma	100
Contact Communities for More Information	100
Strategy 12. Build Green Streets	103
Street Trees	103
What is a Street Tree	103
A Tale of Irresponsibility	104
Trees vs. No Trees	104
Landscaping Treatments	105
No Wild Flowers Wanted	105
Greening Seattle	106
Nooks and Crannies	107
Strategy 13. Provide ADA Access	108
Accommodating Persons Who Are Disabled	109
Strategy 14. Build Public Space	111
Pocket Parks	112
Chapter 6 Endnotes	113
Chapter 7. Conclusions	115
Context Sensitive Design	116
Looks Beautiful But...	117
Failed Places vs. Destination Places	118
Effective Programs	118
The Right Questions to Ask Road Designers	118
Get Out Spoke'n Program	119
Walk to School Day Program	119
Training That Solves Neighborhood Traffic Problems	120
Change Takes Courage	120
Three Elements That Makes a Community Leader	121
Chapter 7 Endnotes	122

List of Cartoons, Diagrams, Maps and Tables

Cartoons	
Rose is Rose / by Pat Brady & Don Wimmer	2
Diagrams	
Diagram 1. Travel Delay by City	4
Diagram 2. People are Walking Less	44
Diagram 3. How We Became So Sedentary	44
Diagram 4. System of Building Roads, Five Keys to Success	49
Diagram 5. Cul-de-sac Kids	63
Diagram 6. Traditional Grid Pattern	64
Diagram 7. Typical Plan of a Shared Street	94
Diagram 8. Shared Street vs. Typical Residential Street	94
Diagram 9. Curb Radius Trade-Offs, a tight radius	96
Diagram 10. Curb Radius Trade-Offs, increasing the radius	96
Diagram 11. Curb Radius Trade-Offs, a tight radius with advanced stop bars	96
Diagram. 12. City of Alma Conversion Project	101
Diagram 13. City of Alma Conversion Project , Downtown Traffic Circulation	102
Map Obesity Trends Among U.S. Adults	
Map. 1 1991	45
Map 2. 1996	45
Map 3. 2004	45
Tables	
Table 1. Traffic Calming Perspectives	96
