

2021 MDOT Advance Training Wheels Virtual On-Road Bicycle Facility Design Training

Sessions: 1:00-4:00 P.M.

Class 1: Aug. 3 and 5

Class 2: Sept. 14 and 16

This six-hour virtual online course on the newest planning and designs for on-road bicycle facilities will be split into two days of three hours each. It consists of state and national guidance, showcases Michigan communities, and analyzes various types of bicycle accommodations including separated and buffered bike lanes.

Target Audience: This course is for city, county, and MDOT managers, engineers, planners, elected officials, DDA staff, economic development staff, township officials, Chamber of Commerce and other stakeholders that can help educate people about on-road bicycle facilities.

Education Credits: Engineers may be eligible for 6 Continuing Education Credits. Planners may self-report up to 6 Certification Maintenance hours.

Please Note: Class is intended to have a virtual bike ride. A route map and notes will be provided in advance of the class. It is not necessary to ride before class but highly recommended. Virtual bike routes provided in coordination with Cities, local agencies, advocacy groups and Toole Design.

National Experts: Toole Design Group

Required Items: Internet connection; Zoom software

Registration: This course is provided free by MDOT.

RSVP July 26 for Aug. Classes and Sept. 6 for Sept. Classes.

Class link and confirmations will be provided 1 week before the class.
