

MDOT Training Wheels V2.0

On-Road Bicycle Facility Design Training

One day classes:
May 20 or 23, Detroit
May 21 or 22, Ferndale

Training Wheels V2.0 is an updated educational 1-day course on the newest planning and design for on-road bicycle facilities. It consists of classroom instruction using state and national guidance, followed by an on-road bicycling segment. We will casually ride through downtown and analyze various types of accommodations for bicyclists such as separated or buffered bike lanes and roadway/bikeway design challenges.

Target Audience: This course is for city, county, and MDOT managers, engineers, planners, elected officials, DDA staff, economic development staff, township officials, Chamber of Commerce and other stakeholders that can help educate people about on-road bicycle facilities.

Education Credits: Engineers may be eligible for 6.5 Continuing Education Credits. Planners may self-report up to 6.5 Certification Maintenance hours.

Please Note: Class is intended to accommodate bicyclists of all levels. If special accommodations are required, notify us at (517) 335-4381 two weeks in advance. Dress appropriately as we will bike, **rain or shine**.

National Experts: Toole Design Group

Required Items: Bike and helmet are required. Bikes for Detroit classes provided by MoGo. A limited number of bikes may be available for Ferndale.

Registration: **FREE!** Course provided by Michigan Department of Transportation. **Please RSVP by May 3.** Class location will be provided at confirmation. Class bicycle participation is limited to 25.

Lunch and refreshments sponsored by Southeast Michigan Council of Governments (SEMCOG University). Hosted with City of Ferndale.
