

ZONING FOR COASTAL RESILIENCE

CLINICS FOR COMMUNITIES AND CONSULTANTS

The Michigan Association of Planning and the Michigan Coastal Management Program co-host this hands-on workshop to identify **the right zoning techniques for your community** to become more resilient in the face of coastal hazards like lake level variation, flooding, and erosion.

This “cohort learning” training is **free** to teams of community decision makers interested in zoning for coastal resilience, and to the consultants who serve them (or would like to!)

NORTHERN MICHIGAN NOVEMBER 19

8:30 am - 2:30 pm

East Bay Township Hall
1965 N Three Mile Rd
Traverse City

SOUTHEAST MICHIGAN NOVEMBER 20

8:30 am - 2:30 pm

SEMCOG Office
1001 Woodward Ave., Suite 1400
Detroit

The “**Coastal Solutions Compendium**” is a new publication from MAP and MCMP that includes a tool to match community characteristics with zoning techniques. Communities will learn about the Compendium and leave with 2-3 especially suitable tools identified.
